INTENSIVE ORAL CARE – NATURALLY COMBATTING BACTERIA

«Perio plus» is used to prevent bacterial abnormalities in the oral cavity before and after dental treatments.

Natural protection

«Perio plus» combines chlorhexidine digluconate with natural bioflavonoids extracted from bitter oranges: Citrox® is recommended for combatting oral bacteria. As a key ingredient of all Perio plus products, Citrox® protects the teeth, gums and oral mucosa from new plaque formation.

Product benefits

- Inspiring fresh taste sensation
- Proven more effective than pure CHX*
- Contains CHX in concentrations customary to dental medicine
- Contains VP/VA copolymer – forms a strong protective film over oral surfaces
- Alcohol free
